PROFESSIONAL EXPERIENCE

Front End Developer   Tehran, Iran (Remote)
Mihan Insurance   February 2023 - Present
- Collaborated with an agile, cross-functional team of more than 20 developers on the company's PWA e-commerce platform and website, resulting in a significant boost in sales by implementing strategic enhancements and optimizations.
- Led the implementation of Static Site Generation (SSG), Server-Side Rendering (SSR), and Incremental Static Regeneration (ISR) techniques for application pages, resulting in improved efficiency, minimized initial load time, and enhanced user experience.
- Optimize web applications for speed and performance, leading to a 20% increase in Google Page Speed Insights scores.
- Implement front-end architecture and design patterns, resulting in more code maintainability and a 25% reduction in bug incidents.

Front End Developer   Isfahan, Iran
Cheshmandaz Ayandeh Parsian   January 2022 - February 2023
- Collaborated with developers in an agile team to enhance existing web applications and develop new products, improving speed and efficiency.
- Contributed to the design and development of a SaaS Project Management web application, resulting in over 500 users

Front End Developer   Isfahan, Iran
Freelance   January 2021 - January 2022
- Spearheaded the development of a highly functional admin panel utilizing React as a Single-Page Application (SPA) for a shipping company to effectively manage and visualize their data, empowering the company to oversee operations and monitor their fleet of drivers efficiently.
- Utilized SCSS to implement captivating CSS animations, sliders, and lazy loading features in multiple projects, resulting in a sophisticated and engaging interface.
